

JULY NEWSLETTER

News

This is our last full month together! We are looking forward to making the most of our remaining time as a class by enjoying fun activities, making special memories, and celebrating how much the children have grown this year. We are excited to spend this time together and cherish these last few weeks with our wonderful friends!

Potty Training

We are happy to support your child's potty-training journey while they are at school, only if you're 100% working on it at home as well. If your child is actively potty training, we are currently taking them to the restroom approximately every 30 minutes to help build consistency and establish a routine., please continue this at home. While it may seem frequent, this approach often helps get the process started and encourages success. at home, continuing to work on potty-related vocabulary such as pee, poop, wet, dry, potty, and clean can also be very beneficial. Consistency between home and school is one of the biggest factors in successful potty training. Please remember that every child develops at their own pace. Some children show readiness sooner, while others may need a little more time. We will continue to support each child where they are and work together with families to make the process as positive as possible. Please reach out if you're ready to start the process.
